

1PCS X New CO2 sensor module MG811 module free shipping

*Store No.437150*

*Store No.437150*

*Beijing XNQ Electric Co,LTD*

wire connect :

VCC :DC power supply 6V

GND: power supply -

DO:TTL output

AO :analog output 0- ~ 2000mV voltage

**Description**

- - - Size:32mm X22mm X27mm (LxWxH)
    - IC: LM393 MG811 Sensor
    - Work voltage:DC6V
    - Features:
      - Instructions with the signal output;
      - Analog + TTL output;
      - TTL output signal is low effective;
      - Analog output 0~2000mV, (higher consistency, higher voltage)
      - Of carbon dioxide with high sensitivity and good selectivity;Long life span and reliable long-term stabilit

**Temperature compensation resistance**

**Signal amplification fine-tune knob**

**TTL level signal output indicator lamp**

**VCC**

**DOUT**

**AOUT**

**GND**

**TCM**

**Fixed mounting holes**  
**4- $\phi$ 3**

**TTL signal output sensitivity adjustment knob**

**The working power supply indicator lamp**
